THE BEST ENTRY-LEVEL GAMING LAPTOP

MSI GS75 Stealth
LEADING EDGE PERFORMANCE IN A SLEEK CHASSIS

“Thanks to its slim design and high-quality build, MSI has established itself as a leading gaming laptop brand.”

It doesn’t hurt that MSI has a massive library of game-centric software and an even bigger catalog of systems with a laptop for just about every size and budget.”
A KEYBOARD FOR ALL GAMERS DESIRE

Through Per-Key illumination of the keyboard, you may receive real time game stats like ammo levels, health levels, tool durability, and take immediate actions, gaining full control of gameplays.

YOUR KEYS, YOUR WAY

With SSE3, you get to suit up your weapon with a cool look by lightening it up with multiple backlit colors, transform your keyboard into a high technology firearm by setting up several keys into one key command and cloud syncing all SteelSeries gears together. *only for GT, GS, GE series

NVIDIA GEFORCE RTX™ GAMING EXPERIENCE

This revolutionary Turing architecture, combined with the all-new RTX platform, fuses together real-time ray tracing (RT), AI technology (DLSS), and programmable shading. You’ve never created and enjoyed games like this before.

APEx LEGENDS

The fields contain average frames per second (FPS) in accordance to Low, Medium, High, or Ultra in game settings. If frame rates are sufficient for fluent gaming (>25 FPS), then the field is painted green. Otherwise, red and yellow signify low FPS and insufficient data, respectively. Furthermore, all fields without values are interpolated to convey approximate or expected performance.

Note: Gaming performance may be noticeably slower on systems paired with slower CPUs.
**FINE-TUNING YOUR RIG TO PREFECT PERFORMANCE**

Switch between the best performance or extended battery life with the exclusive MSI "SHIFT" to meet all scenarios. *For all MSI laptops*

**HERE BETTER PLAY BETTER 3D AUDIO FOR GAMERS**

Get ready to be amazed by the all new Nahimic 3 and live the gaming immersion like never before! With simple and intuitive new UI, the Nahimic 3 not only further enhances in-game 3D surround sound, but also offers even more finite control over your music, movies, and conference calls.

**SURROUND SOUND**
Feel the immersion, feel the sound. (Especially efficient with a headset)

**DEVICE COMPATIBILITY**
Sound on all your audio devices: Jack, USB, Bluetooth, HDMI, SPDIF

**SOUND TRACKER**
Each sound is properly positioned in 3D — coming such as gunshots, explosions, moving

**VOLUME STABILIZER**
Makes volume adjustments automatically and helps keep a steady volume

**VOICE STABILIZER**
Dynamically clear the sound and remove interference noise and lower the extra variation

**NIGHT MODE**
Decrease to 50% volume but you still stay in tune with your gaming action

**BEST SOLUTION TO OVERCLOCK AUDIO QUALITY**

Experience how sound is meant to be heard with the ESS Sabre Hi-Fi DAC (Digital-Analog-Converter). With the ability to support up to 24bit/192kHz sampling, it doesn’t take an audiophile to tell the difference.
